

Supporting women into construction

60 fully-funded Microcredential places are now available

There are currently 100,000 unfulfilled positions in the construction industry, and with a commitment to having 15 per cent female workers across trade and non-trade construction roles by 2030, now is the perfect time to join this booming industry.*

**Help address
the critical
skills shortage**

**Boost the
NSW economy**

**Create a more
diverse and
inclusive workplace**

**Bring your
unique perspective
and ideas**

**Broaden
your career
opportunities**

Whether you're looking to start your career or upskill in construction, the Institute of Applied Technology - Construction (IAT Construction), in partnership with the NSW Government, is offering 60 fully-funded Microcredential places exclusively for women in high-growth training courses.

Fully-funded Microcredentials

- 2D CAD Drawings and 3D Models in Construction
- Frontline Leaders in Construction
- Introduction to Building Information Modelling (BIM) in Construction
- Introduction to Project Scope Management in Construction
- Microsoft Office Foundations in Construction
- Power BI Fundamentals in Construction
- Project Management Foundations in Construction
- Project Risk Management in Construction
- Quality Management in Construction
- Stakeholder Engagement and Management in Construction

Successful applicants will need to be available to complete an eight-week training course (up to 60 hours) from 27 May 2024.

Application Process

Please provide a 300-word response on 'How a Microcredential will support the advancement of your Construction career' and upload via the Apply Now button or scan the QR code.

Applications close: 7 May 2024

Successful applicants will be advised in writing by Friday 10 May. Valid for IAT Construction Teaching Period 3 (week commencing 27 May 2024). Unsuccessful applicants will be added to a waitlist for Teaching Period 4 (22 July 2024) for further funding considerations. IAT Terms and Conditions apply.

Successful applicants will be offered to attend a pre-class connection session to meet other women, and visit to a construction site (Sydney Metro), week commencing 24 June 2024.

Eligibility Criteria

- Successful completion of two IAT Construction Microskill courses: store.training.tafensw.edu.au/product-category/iat/iat-construction
- Female or non-binary
- Reside in NSW
- Must not be employed by IAT Construction partners, including TAFE NSW, Western Sydney University, CPB Contractors, BlueScope, InfraBuild, samurAI BI, NAWIC or Lendlease.
