## **Scrisoare de motivare a candidaturii la funcția de membru în Consiliul Facultății de Chimie, Biologie, Geografie**

Candidez pentru funcția de membru în Consiliul Facultății de Chimie, Biologie, Geografie, a UVT din următoarele rațiuni :

- Facultatea este unitatea structural-funcțională de bază a organizării studiilor universitare, în care se iau decizii importante care privesc studenții și cadrele didactice, atât din perspectiva componentei pedagogice cât și din punct de vedere al cercetării, al organizării curente a activității ;
- Beneficiind de experiența unui mandat în funcția de director de departament și a mai multor mandate de membru în consiliul departamentului și al facultății, consider că am expertiza necesară pentru a contribui la orientarea pozitivă, în continuare, a activității facultății și la consolidarea prestigiului acesteia ;
- Având în vedere experiența dobândită în timp, voi putea contribui în continuare la cultivarea unui climat de echilibru, colegialitate, încredere și rigoare în relațiile din cadrul facultății; pe aceleași baze, urmează să continui acțiunile de stimulare a colaborării interdisciplinare din cadrul facultății, atât din punct de vedere pedagogic, cât mai ales în sfera relației cu mediul social-economic și a cercetării;
- Bunele relații pe care le am cu colegi din celelalte centre universitare ale țării, precum și cu un număr important de specialiști din mediul social-economic sau cu experți străini, îmi vor permite să contribui, în continuare, la creșterea prestigiului forței și notorietății facultății noastre.
- Din punct de vedere practic, facultatea se confruntă cu o serie de probleme decurgând din specificul fiecărui domeniu științific și de formare, respectiv din condițiile materiale și tehnice în care ne desfășurăm activitatea. Acestea sunt legate în special de calitatea spațiilor didactice și de funcționalitatea dotărilor pentru cercetare. În ciuda investițiilor și a lucrărilor efectuate, sunt încă probleme mari de adecvare și funcționalitate, pentru soluționarea cărora trebuie să lucrăm împreună și să convingem conducerea UVT de necesitatea rezolvării lor cu celeritate.

Consider, așadar, că experiența universitară și cea din mediul social-economic îmi vor permite să contribui în continuare la bunul mers al activității facultății și la construcția unei atmosfere de colaborare și implicare responsabilă în viața universitară, venind în sprijinul echipei manageriale a facultății.
